Property Description

Casa Cielo brings the classic elements of modern architecture, like enormous windows and open concept living, to a jungle setting that maximizes the beauty of both. This well-appointed, contemporary home plus 4 additional self-contained units creates a private compound in the heart of Manuel Antonio that works beautifully as a family home, a time-share, or vacation rental as it can sleep up to 14 in style. The main house is light and airy with large floor to ceiling windows, open concept living/dining/full-service kitchen area, raw volcanic stone tile on the floors, and a loft mezzanine large enough for TV room and a pull out queen sofa bed. The main floor features a sunken living room and sliding glass doors to the terrace for classic Costa Rican indoor/outdoor living. Cathedral ceilings in the living area show off the loft above. Two master bedrooms with king-size beds, enormous closets handmade from exotic woods, and en suite bathrooms featuring the volcanic stone tile throughout complete the layout of the main house.
