- Wheelchair Access

Property Description

Imagine driving over a large private bridge spanning the Coronado River and passing through an intricately decorated gate (a work of art some may say), to enter a small, tranquil, and nature-immersed community surrounded by a majestic jungle bordered by a crystal-clear mountain river. This property located on a 1000 square meters lot with perfectly manicured grounds, reminiscent of a park and landscaped with native plants and shrubs, seamlessly blended into the surrounding forest. On sale for the first time, the beautiful surroundings of this property are complimented by multiple shared amenities available for the residents of this small community. While the community is integrated into the nature that extends far in all directions of Tres Rios, the town of Ojochal with its services, entertainment, and shopping is only 4.5 km away. The house is located on the end of the access road – you will arrive home after passing a spectacular waterfall with a natural swimming pool just below the falling water.
